NSAII

Expertise in Oil and Gas
Field Operations

Netherland, Sewell & Associates, Inc. (NSAI) has a 40-year reputation as a leader in providing geoscience and reservoir engineering expertise around the world. Our excellent service and unparalleled staff allow us to bring the same high level of experience and skill to our Operational Advisory and Technical Support services. NSAI provides much more than the traditional services typically associated with most reservoir evaluation consultants. Through our Operations Advisory services and a series of cooperative alliances we are able to assist our clients with a variety of operational needs.

Our Operations Experts

Tom Souers – Operations/Reservoir Engineer – Dallas
Mike Krehel – Operations Engineer – Dallas

Services Provided To Our Clients

- Assist in bankruptcy workouts including expert testimony
- Monitor, on behalf of lender, borrower's development programs associated with specific loans
- Develop strategic programs to maximize net revenue
- Recommend programs for reducing lease operating and drilling costs
- Prepare exploration and development programs and associated budgets
- Provide expertise to enhance secondary recovery projects
- Review AFEs and joint interest billings
- Perform domestic and international onsite inspections and due diligence
- Determine equipment inventories and salvage values
- Prepare abandonment costs for FASB 143 compliance

Selected Operations Clients

Our clients range from small independent operators to major national oil companies, and include leading financial institutions around the world.

- Pemex Exploración y Producción

- OXY USA Inc.
- European Bank for Reconstruction and Development (EBRD)
- Halliburton International, Inc.
- GE Capital Services
- AIG Financial Products Corp.
- Haynes and Boone, LLP

Selected Operations Projects

- Managed Hamon Operating Company for 10 years
- Served as liason between operating company and lender during major offshore Russian development program
- Assisted Pemex Exploración y Producción in reducing offshore drilling costs

- Advised client and coordinated services for major workover and horizontal drilling program in gas storage field
- Reviewed development plans for deepwater offshore Africa project
- Designed drilling program and coordinated drilling of initial coal gas well for client
- Prepared recommendations to enhance CO2 flood operations for major independent
- Worked with lender over 14-month period to collect \$130 million in bad debt

So If You...

- are a lender with distressed properties or loans that would benefit from an unbiased team working alongside your client
- are an operator desiring to keep your competitive edge with today's rapidly advancing technology
- need additional manpower without adding staff
- have a fiduciary responsibility for assets of outside parties
- are looking for ways to maximize property value
- have a great opportunity but don't know how to get started
- have other needs requiring the service of one or more of our non-affiliated alliance partners

Then You Need To...

- Contact NSAI today to arrange for a more in-depth presentation at a convenient time in your office. We will gladly show you how these Operations Advisory services may be tailored to your particular needs at a competitive price.

Our clients get the NSAI name and our team of experts. We think they get the very best.
